

mappel::methods::openmp  
::error\_bounds\_expected\_stack

```
graph LR; A[mappel::methods::openmp::error_bounds_expected_stack] --> B[mappel::methods::openmp::cr_lower_bound_stack]; A --> C[mappel::normal_quantile_twosided];
```

The diagram illustrates a branching structure. A single parent node on the left, with a gray background, branches into two child nodes on the right, both with white backgrounds. Blue arrows point from the parent node to each of the child nodes.
