

```
mappel::methods::objective  
::openmp::negative_definite  
_hessian_stack
```

```
graph LR; A["mappel::methods::objective  
::openmp::negative_definite  
_hessian_stack"] --> B["mappel::methods::objective  
::negative_definite_hessian"]
```

A diagram showing a transformation from a stack-based to a hessian-based objective function. A grey box on the left contains the code `mappel::methods::objective::openmp::negative_definite_hessian_stack`. A blue arrow points from this box to a white box on the right, which contains the code `mappel::methods::objective::negative_definite_hessian`.

```
mappel::methods::objective  
::negative_definite_hessian
```
